P.G. Bell

The Train to Impossible Places Adventures series

Events suitable for: Key Stage 2, able to adapt to include Key Stages 1 and 3

Key themes: Reading for pleasure, storytelling, imagination, starting your own story

In-person events

Option one: Telling Impossible Tales — Author talk, reading and Q&A (45 — 60 minutes)

In this “meet the author” event, Peter tells the children how he fell in love with storytelling when he was their age, introduces them to the characters and worlds of his books and reveals the true tale of how a simple bedtime story grew into a bestselling series. The event includes a brief reading and a group exercise designed to prompt creative writing that children can do in class. The event ends with a Q&A session in which the children can quiz Peter about whatever they like, and is followed by a book signing. It can be tailored to smaller or larger groups as required, but is ideal for an assembly setting. The maximum group size: is 1,000 pupils.

Option two: A Trio of Tricks to Tell Your Tale (50 — 60 minutes)

We all love stories, but what really makes them tick? And how can we tell our own? This highly interactive workshop explores the three key building blocks of any good story and lets pupils put them into practice straight away. In the session Peter gives children the chance to write the beginning of their very own story and the tools to take their tale further. The workshop is designed to supercharge children’s imaginations and creative writing skills and there is the opportunity to share ideas and ask lots of questions throughout. The maximum group size is 30 pupils.

Option three: Building Better Worlds (50 — 60 minutes)

All of Peter’s books involve strange and magical worlds, and this interactive workshop shows children how to create their very own. Together, pupils’ and Peter will explore the importance of setting in storytelling — from the Impossible Places, to Hogwarts, Tatooine and beyond. The session includes an arts and crafts element, as pupils create illustrated postcards of their newly created worlds, to exchange with friends or keep for themselves. Children will require a notebook/paper and pen and coloured pencils or felt tips. The maximum group size is 30 pupils.

Option four: Making Good Stories Better (50 — 60 minutes)

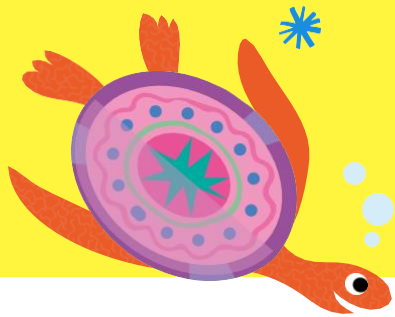

This workshop demystifies the editing process, and gives children the confidence to make their stories clearer and more effective. Peter takes the children through his own editing process, with visual examples of annotated manuscripts and editors’ notes, so they can see just how much he gets wrong the first time around, and how he goes about improving it. Peter will discuss what pupils think good and bad feedback looks like, before giving them some specific things to look for in their own work. (Older groups may exchange work and examine each other’s writing.) The maximum group size is 30 pupils.

Virtual events
